PLACEMENT CELL & PLACEMENT COMMITTEE

Over a decade of Existence as a premier institution Geeta Engineering College, Panipat has made a mark by providing the student's job opportunity in prestigious and reputed firms. It is my pride and privilege to share view facts about placements as placements has always been a vital ingredient for endorsing institutes student's potentiality.

At GEC, The Training and Placement Cell is one of the integral part of our college, who train students to become professionally competent engineers and managers by providing value-based quality education and to make them ready for the Corporate world. However, during last few years, the demand of our graduates has increased exponentially.

Our department organize HR conclave, guest lectures, industrial visits & are always striving to strengthen Industrial Interface.

The department is constantly pitching different industries to build relations and network with industry people for placements of our Engineering as well as Management students. I sincerely thank Geeta Engineering College for providing me the best education and good infrastructure facilities. I am placed in BYJU'S with a package of 10 LPA. This was possible due to the endless support and care given by my faculty in CSE. They guided me and provided the necessary assistance to build my professional and personal skills. The curriculum designed by the department has definitely helped me during the time of placements. It was privilege to be part of esteemed institution.
